

Jamie Seibert

Senior Director

Location

2001 Ross Avenue
Suite 650
Dallas, TX 75201

Education

B.S., Computer Science,
Northern Kentucky University
M.S., Information Assurance,
Capital Technology University

Mr. Seibert has more than 19 years of experience with a range of cybersecurity topics, including, but not limited to, security operations, forensic investigation, litigation support, expert witness, network security systems, security architectures, securing manufacturing systems and security assessments.

At FTI Consulting, Mr. Seibert leads complex cybersecurity incident response and subsequent investigation matters, ensuring cybersecurity readiness, and resilience against sophisticated cyber attacks.

Prior to joining FTI Consulting, Mr. Seibert demonstrated expertise in the designing, development, and delivery of critical cybersecurity systems, processes, and operations for several large global corporations. Mr. Seibert has experience working with financial and manufacturing organizations and expertise in security architecture, event management, investigations, cyber defense, incident handling and security infrastructure. In addition to his corporate experience, Mr. Seibert taught undergraduate and graduate level information security and computer forensics class at university. Mr. Seibert has also served as an expert witness in federal court.
