

Cybersecurity Expert Witness Capabilities

An intelligence-led, expert-driven, strategic approach to global cybersecurity challenges affecting your organization – your people, your operations, and your reputation.

Legal response resulting from class action data privacy cases, arbitration, compliance investigations, and regulatory scrutiny often requires unique expertise to help win the case and reduce losses. FTI Cybersecurity provides independent, objective, and authoritative expert witness testimony, supporting clients facing high-stakes litigation.

ABOUT OUR EXPERTS

FTI Cybersecurity's testifying experts have decades of experience at the highest levels of law enforcement and government intelligence agencies, offering unique perspectives and a depth of knowledge to help courts, tribunals, and regulators determine solutions. Our experts can opine on cybersecurity matters spanning every industry and includes, but is not limited to:

- Complex cyber technical investigations
- Incident response
- Mobile forensics
- Data breach analysis
- Corporate espionage
- Theft of intellectual property
- Unauthorized access
- Insider threat
- Compliance
- Industry standards

EXPERT WITNESS CREDENTIALS

Federal Watchdog Scrutinizes Anti-Fraud Measures

FTI Cybersecurity was engaged to provide an expert witness report and testimony for an international entertainment company, who was under scrutiny by the U.S. Federal Trade Commission. We presented an expert report comparing the client's fraud prevention capabilities to industry standards.

Fraudulent Review Manipulation Analysis

FTI Cybersecurity was engaged by a global telecom/video solutions provider after alleged fraudulent manipulation of their online reviews. We analyzed documents, conducted open-source intelligence gathering, and identified fake reviews as part of our expert witness report.

Litigation Support for a Health Insurance Company

FTI Cybersecurity was hired to provide expert witness testimony regarding individuals who claimed their information was released on the dark web. We identified existing compromises to demonstrate information on the dark web was not caused by our client.

Intellectual Property Theft Investigation

FTI Cybersecurity was retained to opine on intellectual property theft allegations. We compared the organization's cybersecurity controls to the NIST cybersecurity framework and drafted a quality rebuttal report to the opposition's expert filing in just over 72-hours magnifying omitted gaps in the opposing experts' reports.
